

# Aflatoxin Testing Results (ppb)

Samples with **no detectable** levels of aflatoxin **lower** than 2021 and 2020

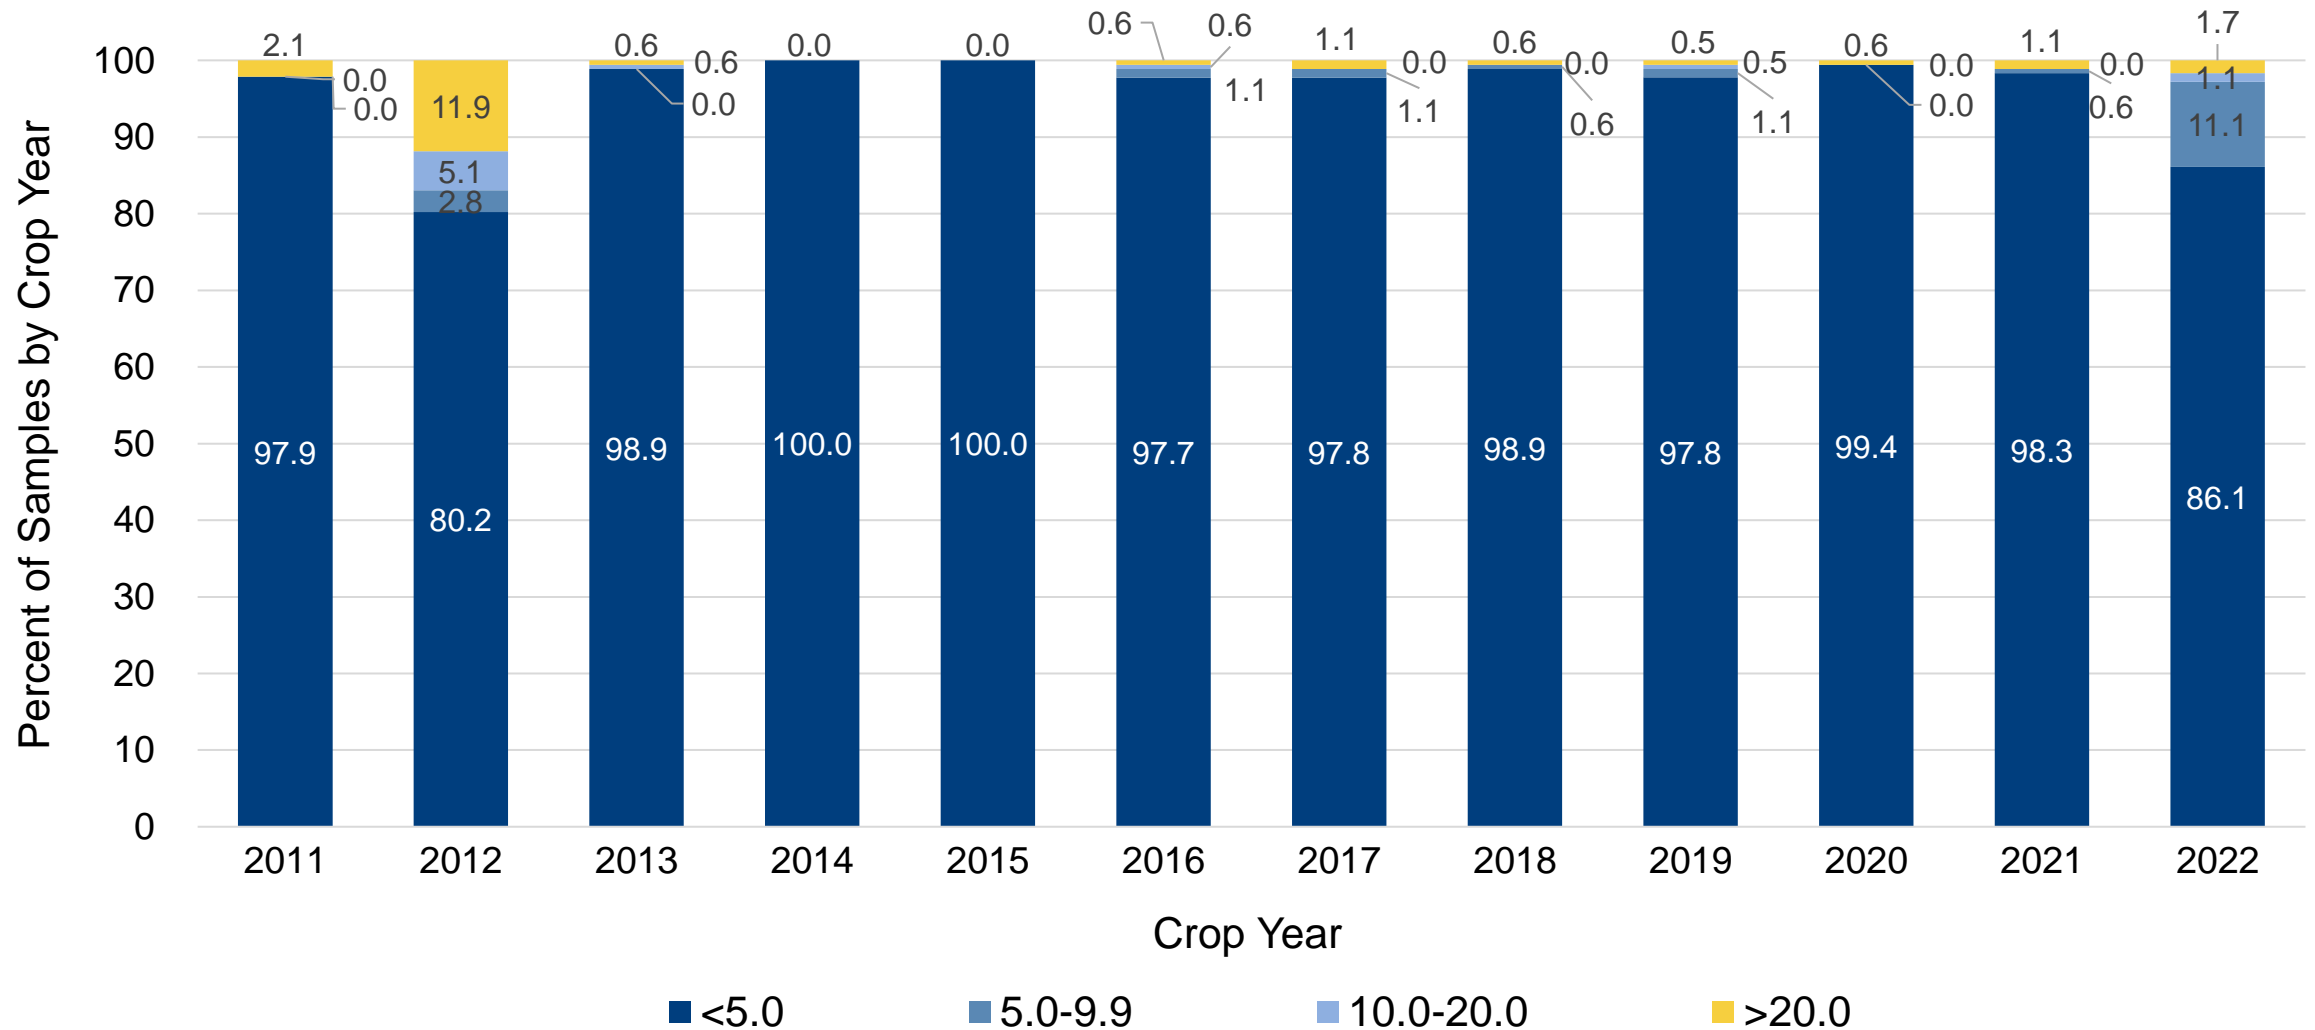

**98.3%** of samples tested below the FDA action level of 20.0 ppb

Growing season conditions conducive to aflatoxin development in some areas

Percent of Samples by Crop Year

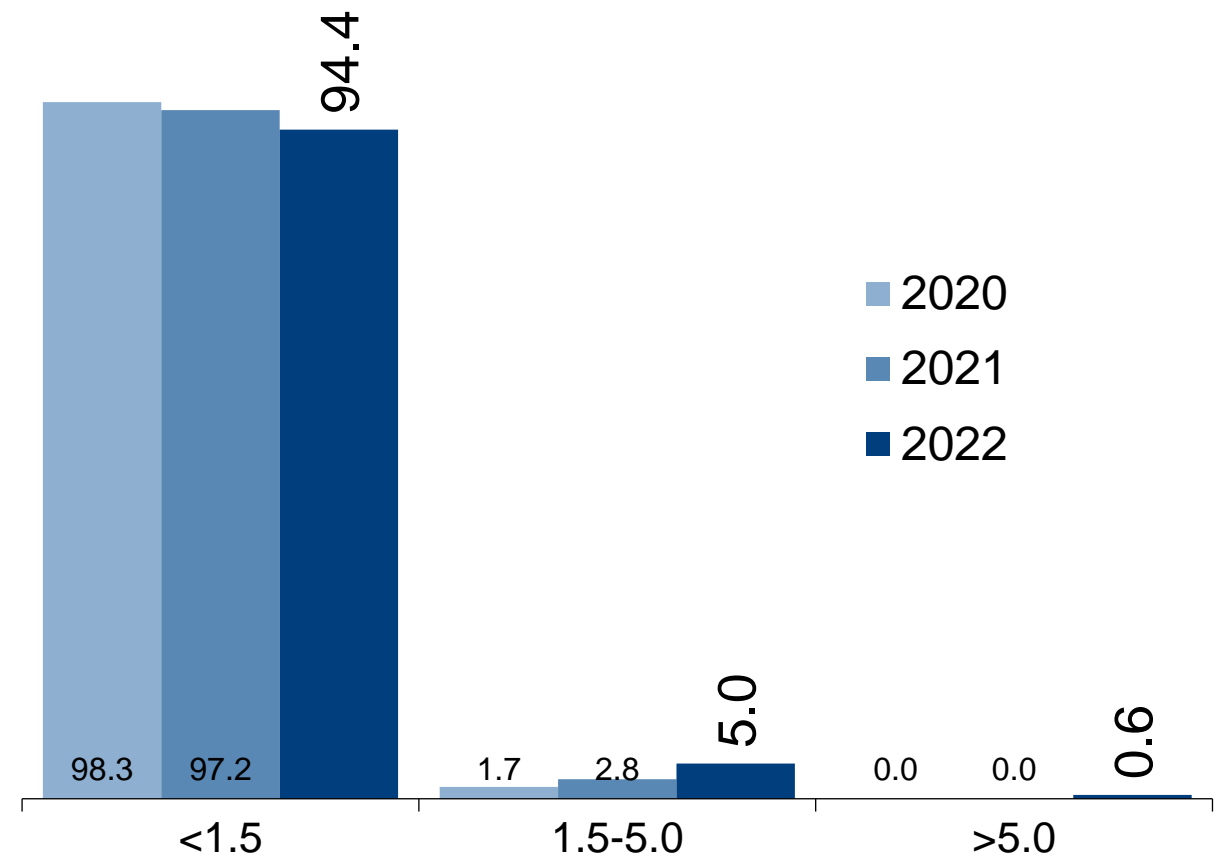

# Aflatoxin Testing Results (ppb)

# DON (Vomitoxin) Testing Results (ppm)

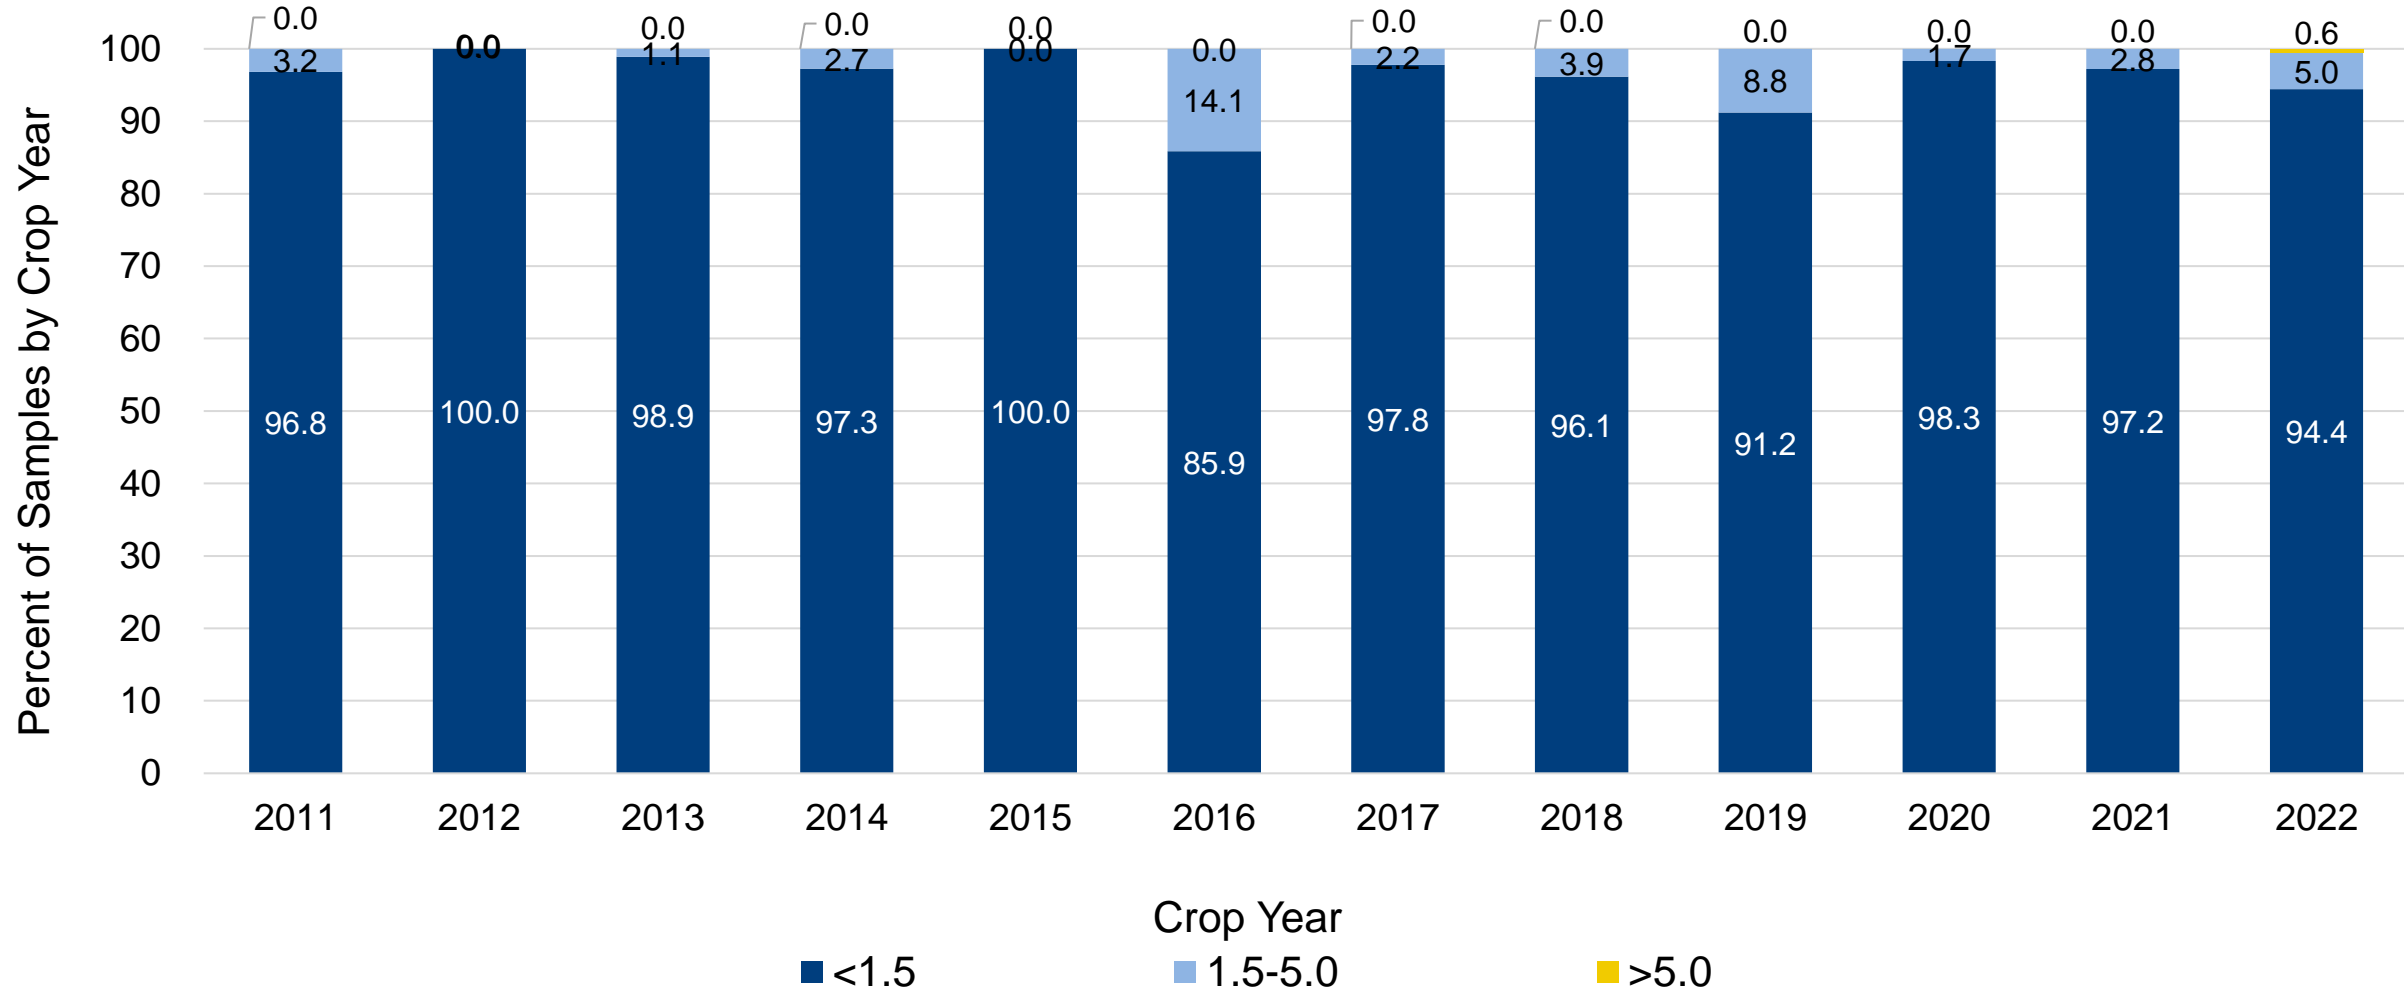

Percentage of samples below 1.5 ppm **slightly lower** than 2021 and 2020.

**One** sample exceeded the FDA advisory level for DON of 5.0 ppm.

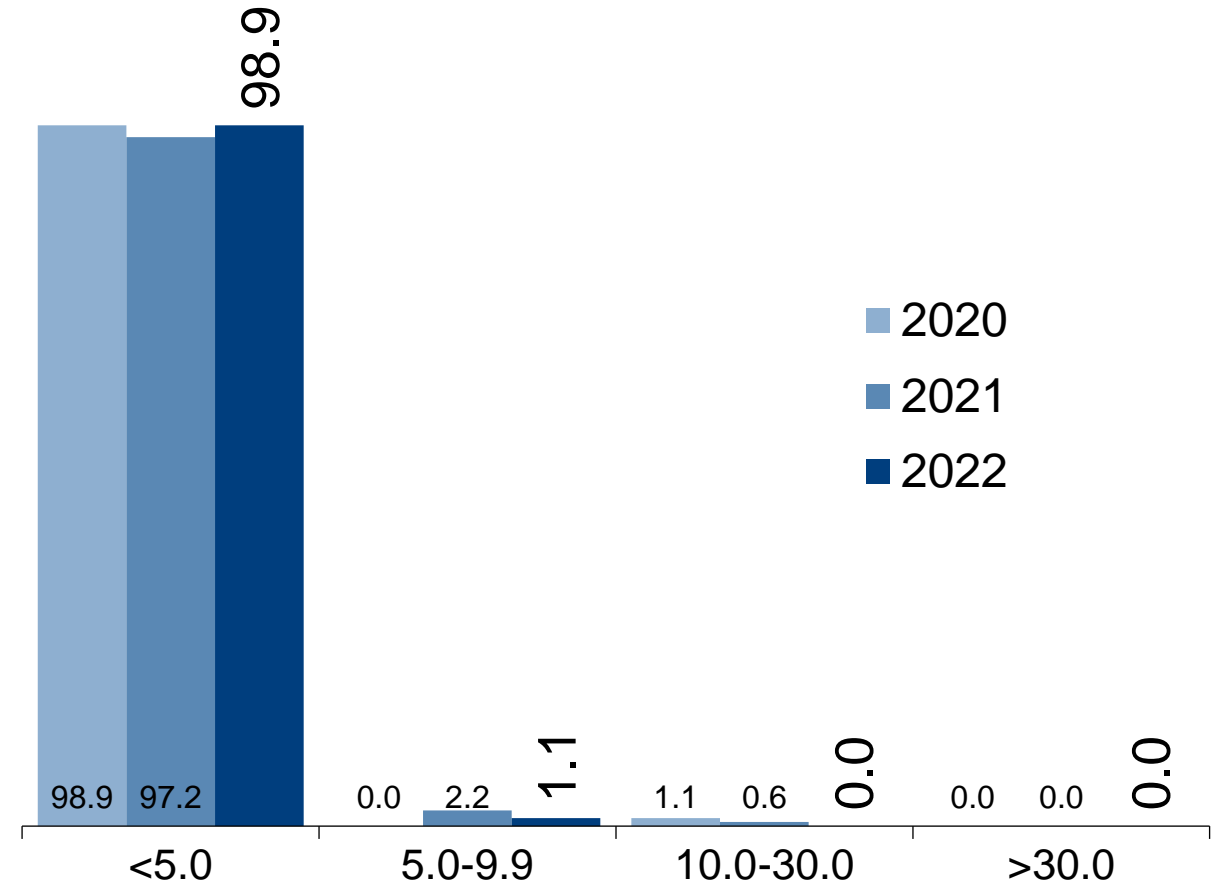

Percent of Samples by Crop Year

# DON (Vomitoxin) Testing Results (ppm)

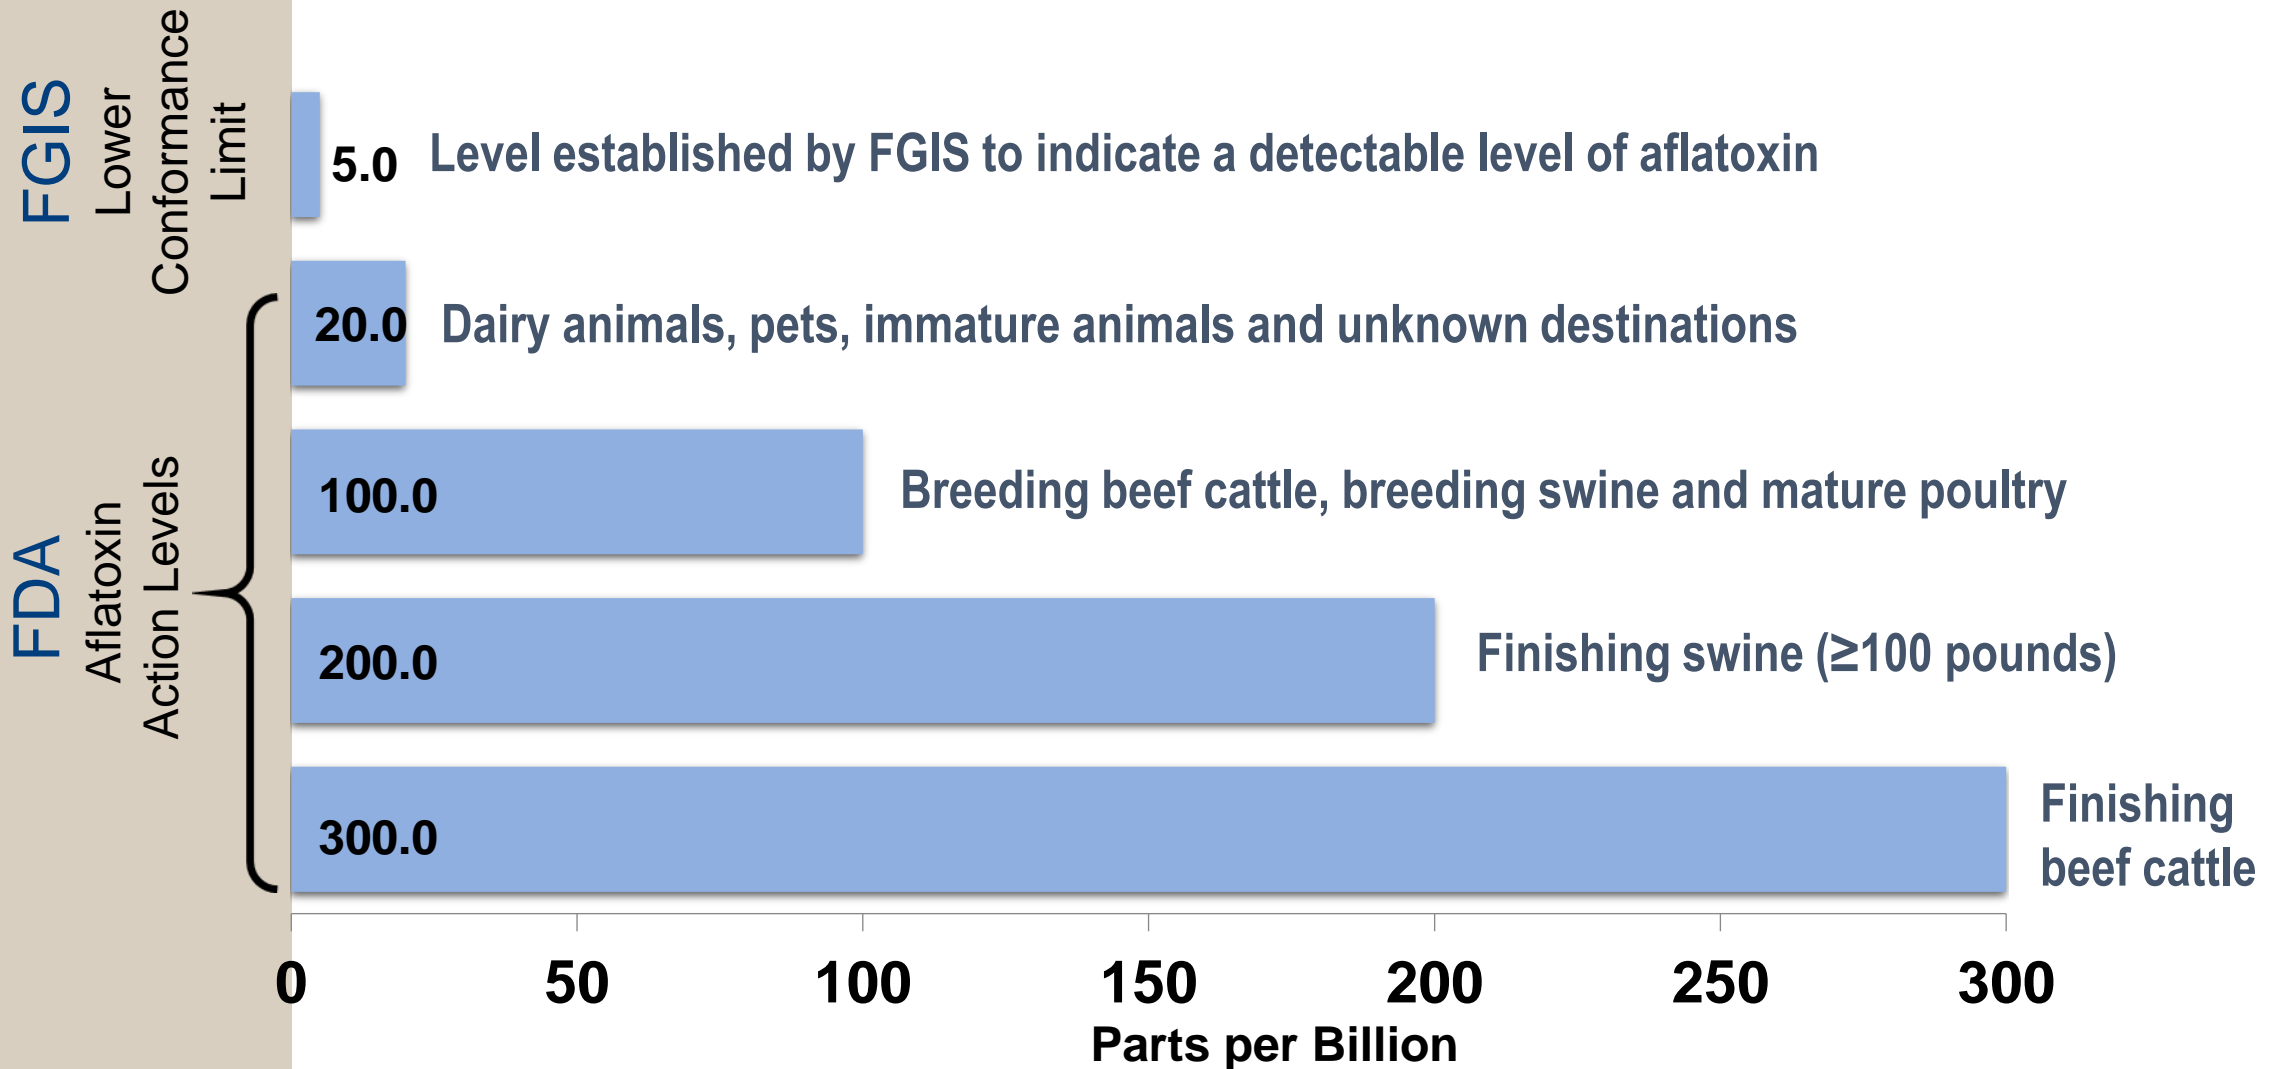

# Fumonisin Testing Results (ppm)

Percentage of samples below 5.0 ppm **slightly higher** than 2021 and the same as 2020
